

ENT Referral Guide

Austin Health Ear Nose Throat (ENT) Unit holds fortnightly multidisciplinary meetings with Plastics, Oncology, Maxillofacial units to discuss and plan the treatment of patients with Head and Neck conditions.

Department of Health clinical urgency categories for specialist clinics					
For emergency cases please send the patient to the Emergency department.					
Urgent: Referrals should be categorised as urgent if the patient has a condition that has the potential to deteriorate quickly, with significant consequences for health and quality of life, if not managed promptly. These patients should be seen within 30 days of referral receipt.					
Routine: Referrals should be categorised as routine if the patient's condition is unlikely to deteriorate quickly or have significant consequences for the person's health and quality of life if specialist assessment is delayed beyond one month.					
Exclusions: see guidelines under Condition / Symptom and refer to website- www.health.vic.gov.au/surgery
